KEEP CALM

Plenipotentiary 2014 Update

RIPE 69 | London - UK | 7 November 2014

- Top decision-making organ of the ITU

- Held every four years

  - Three weeks duration

  - 20 October - 7 November in Busan, South Korea

- Sector Members can attend, but [generally] only Member States can speak

  - RIPE NCC present as Sector Member

  - RIPE community members joined various Member State delegations

Internet-related Resolutions

- PP operates by reaching agreement between Member States on Resolutions (180+), Decisions

- Certain Resolutions relate specifically to Internet issues:

101	Internet Protocol-based networks
102	ITU's role with regard to international public policy issues pertaining to the Internet and the management of Internet resources, including domain names and addresses
180	Facilitating the transition from IPv4 to IPv6
IND-1	Proposed Resolution: ITU's role in realizing Secure Information Society

Concerns

- Re-organising IP address allocation and policies based around national control [India]

- Establishing ITU as an IP address registry [RCC]

- Developing public policies to dictate IP traffic routing [India]

- Stronger role for ITU/gov in establishing "guidelines" for IXPs [Argentina]

- Stronger role for ITU (and the United Nations generally) in Internet governance

Chris Buckridge - ITU PP-14 Update - 7 November 2014

- Re-organising IP address allocation and policies based around national control [India]

- Establishing ITU as an IP address registry [RCC]

- Developing public policies to dictate IP traffic routing [India]

- Stronger role for ITU/gov in establishing "guidelines" for IXPs [Argentina]

- Stronger role for ITU (and the United Nations generally) in Internet governance

- Did we win? Is the Internet safe? 김치 어디? *

- Engagement works! (and is key)

  - Relationships with governments in EU, CIS, Arab region

  - Working with you working with your governments

  - Coordination with RIRs, I* and technical community

- This discussion isn't over

  - Some governments still have concerns, and ITU not the only forum

- It's not all about us

  - Politics, money, and the occasional technical discussion

* "where's the kimchi?"
