

RIPE NCC Security Outreach Activities

Mirjam Kühne, Ivo Dijkhuis and
Marco Hogewoning

- Increase visibility in security communities
 - More cross collaboration between RIPE and security communities
 - More awareness about RIPE and the RIPE NCC
- Understanding interests and concerns of security communities better
 - Governments, researchers, “hackers”, CSIRTs, operators ..
- Lead by example
 - Provide information about security topics (e.g. RIPE Labs)
 - Make sure we follow security best practices

- Attending various security related events
 - Mostly focused on technical/operational aspects of security
 - Dutch National Cyber Security Center Conference
 - Security and Hackers conferences (OHM, HITB, BlackHat, CCC)
 - IPv6 Security Summit (Troopers)
 - Balkan Computer Congress (BalCCON)
 - MAAWG
 - ...
- Attracting presenters (SEE, RIPE Meetings)

- More security related info on www.ripe.net
 - Easier navigation to security items on RIPE Labs and www
- RIPE NCC Responsible Disclosure Policy
- Internal RIPE NCC Security Focus Group

- Member of TERENA CSIRT Task Force
 - Operational benefits
 - Covers the RIPE NCC service region
 - Collaborating to improve abuse contact data

- We are all after the same objective: make this world a better place
- Increase efficiency on both sides
 - Explain what RIPE and RIPE NCC can and cannot do
 - Explain how to use our tools and dataset to retrieve information yourself
- Capacity Building
 - Planning to develop online training materials
 - Discussing more training, also outside EU region
- Continue the dialogue on emerging issues
